GENRE- SPANNING FILMS FOR CREATIVE PRACTICE

**"FILMS, DEMO SCORES, FEEDBACK,
EXPERT GUIDANCE, COLLABORATIVE
OPPORTUNITY AND COMMUNITY TO
DRIVE CREATIVITY."**

The Cue Tube is a platform and community built around an extensive, and continually-developing, library of un-scored films, fully licensed for practising and showcasing. A genre-spanning resource for all ages, our library is popular with educational institutions around the world, ranging from primary schools through to facilities providing Master's-level education.

We offer advantageous pricing for institutions, to enable them to include these resources within their offering for students.

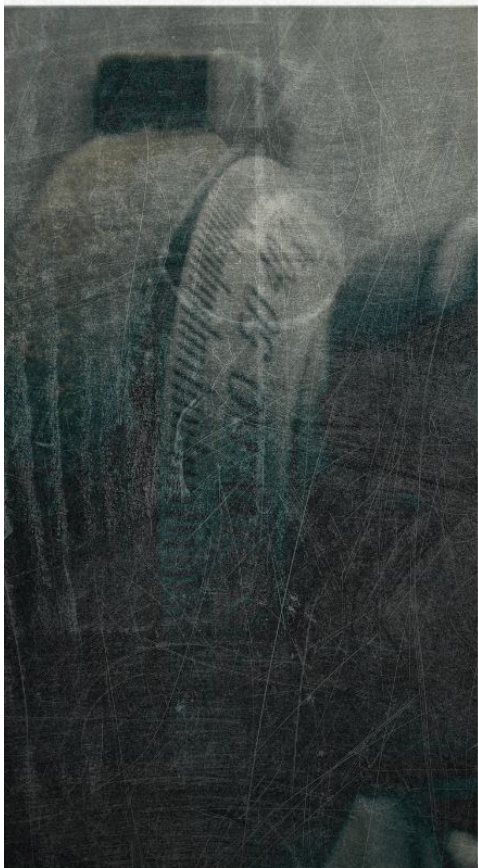

BRINGING COURSES TO LIFE...

The Cue Tube's unprecedented library of entertaining, varied and rich video clips, aids course leaders in designing courses and assignments which are original, relatable and inspiring. Un-scored and fully-licensed for students to develop their potential to the fullest, our assets help students prepare for the 'real world' of working to picture. Wonderful learning outcomes, high levels of engagement, and, for the more advanced levels of education, a great stepping stone to approaching directors, armed with an attention-grabbing portfolio and level of expertise.

Our library: <https://thecuetube.com/film-and-sound-resources>

CURATED FOR ALL AGES

We recognise that materials like this can be of as much interest to teachers trying to stimulate creativity and imagination in small groups of primary-age children as they are for master's students at the most prestigious conservatoires. So we offer a curated selection of ways to access these resources accordingly.

We provide opportunities to 'play' with different genres including:

- Animation
- Documentary
- Horror
- Drama
- Science Fiction
- Commercials
- Film openers
- Spy thrillers
- Game play sequences

Many films in the library are available with demo scores, temp tracks, spotting notes and more. Separate audio files (voice and sfx as stereo WAV files), enable sound design and remixing practice, analysis and are a great basis for inspiration/comparison.

FULL ACCESS

FULL INSTITUTIONAL MEMBERSHIP is the best option for students and staff.

Tremendous value, heavily discounted per-capita compared with direct student membership.

- Students get 100% off all* films in our 'core' SPECTRUM library for the whole academic year, allowing them to freely choose, experiment and develop.
- Students get the benefit of being able to access the new films we introduce during the year (typically one per month).
- Students are able to submit scores for our monthly live reviews, benefit from masterclasses and have the chance to win orchestral recording sessions.
- They become part of a global creative network and get the significant benefit of seeing many different approaches to each film.
- Cue Tube Pictures, our production arm, provides superb materials for the library through the year.

We also offer a referral scheme, whereby members can receive money for bringing other creatives into our community.

**This is an advantage over individual membership, which only offers 100% discount on the shorter films in our library, with a smaller discount on the longer films.*

CURATED FILM BUNDLES

**OFF THE
SHELF**

CUSTOM

HYBRID

As an alternative to full membership we offer four carefully curated bundles of 5 un-scored films each. An entry-level way to access our resources: an *animation* bundle; a *documentaries* bundle; and two 'mixed' bundles, one of which has been specially curated to be suitable for all ages. Each is £350.

Fully curated bundles of five films of your choice can be created with you for £450.

In both cases, additional films can be included for £50 per film.
